📍 Buenos Aires, Argentina

PROFILE

I am a self-taught front-end developer with many personal projects (+50). I currently specialize in the MERN stack for work, but I love learning every day and mastering new technologies.

SKILLS

- HTML, CSS & JavaScript
- Sass
- React
- Redux
- Webpack
- Git
- Express
- MongoDB

PERSONAL PROJECTS

PLATZI VIDEO

This platform allows you watching videos on demand.

st-platzivideo.onrender.com

- Advanced application using **React** and **Redux**.
- Integration with **Express** and **MongoDB** in the Backend.
- **Twitter** and **Google OAuth**. Faster initial load with **SSR**.

WEATHER APP

Weather App is an interesting project with a beautiful and clean UI.

weather-dev-app.netlify.app

- Site developed using **React**.
- Styles with vanilla **CSS**.
- **OpenWeatherMap API** and **Geolocation** features.

SUPERHEROS

Landing Page with microinteractions.

salinatomass.github.io/superheros

- Layout with **HTML** & **CSS**.
- Animations, loaders and **micro-interactions**.
- Modals with a bit of **JavaScript**.

EDUCATION

PLATZI

Web Development School and English
2020 - Present

INAC-CIATA
